

The ultimate task light, evolved

Product: w227 Winkel alu

For the 10-year anniversary of w127 Winkel, we present w227 Winkel alu: the evolution of our bestselling task light, that takes its bold design to a new level, it has been completely re-engineered with one clear goal: to get more out of less. Now based on aluminium, this next-generation task light uses significantly less material and features new, slimmer arm profiles and joints, an extended movement range and an evolved light technology. With its unique and exceptional performance, w227 Winkel alu truly redefines state-of-the-art, high-end task lighting.

Design: Dirk Winkel, 2022

Features: Less is more
High-performance light
Efficient glare protection
Recycled and recyclable aluminium
Full-spectrum LED

Efficient glare protection

w227 Winkel alu features an effective anti-glare construction that prevents glare without any significant light loss.

Full-spectrum LED

Designed to recreate the full, uninterrupted colour spectrum of sunlight, full-spectrum light has a rich, profound quality that is impossible to achieve with the limited spectrum of a standard LED. Full-spectrum light also offers superior colour rendering, making it an ideal choice for environments where correct colour perception is a vital aspect.

Adapts effortlessly

Designed to adapt seamlessly to modern working environments, w227 Winkel alu offers two mounting options – base or pin – and is available in both white and black.

High-performance light

w227 Winkel alu's entire concept is built on providing state-of-the-art light, and in this, it truly excels. Built around a COB LED, it is a well-thought-through, precisely engineered lighting solution in a system of several individual components. Each of these plays its own vital role in delivering a generous yet incredibly even spread of high-quality, dimmable light over a large surface.

Recycled and recyclable aluminium

Not only is aluminium a tried-and-tested, classic and infinitely recyclable material – its strength and lightness allow for robust, resource-efficient constructions. w227 Winkel alu consists of partly recycled aluminium, which itself can be recycled at the end of its long lifespan.

Less is more

w227 Winkel alu delivers even more pared-down dimensions and aesthetics than its predecessor, while surpassing it in flexibility. Designed to require as little material as possible, its slender arms and joints are now hollow, allowing previously visible cables and springs to be concealed.

Technical information

Luminous intensity distribution (polar)

w227 Winkel alu

Luminous flux: 497 lm
Efficacy: 60 lm / W

● C0/C180
○ C90/C270

cd

Light calculation: single workplace

Fixture height: 0.40 m

Calculation surface

Desk dimensions 1.6 × 0.8 m
Workplace area 0.6 × 0.6 m
Average illuminance (E_m) 712 lx
Max. illuminance 1284 lx

Physical	Mounting	Article-specific information
	Material	Lamp body: aluminium Base & pin: steel Diffuser: acrylic Reflector & glare shade: polyamide
Colour	Article-specific information	
Operation	Integrated dimmer switch	
Net weight	Article-specific information	
IP rating	20	

LED	Light source	COB LED (included)
	Lifetime expectancy	L80 / 50,000 h
	Colour temperature (CCT)	3000 K
	Colour rendering index (CRI)	97
	Standard deviation of colour matching	3-step MacAdam
	Replaceable by a professional	

Optics	Diffuser	
	Reflector	
	Glare protection	

Electronics	System power	8.2 W
	Voltage	100–240 V
	Light control	Dimmable
	Insulation class	III

Available early 2023
